DOUBLE-STROKE GAS SPRINGS

Let's make it easy! For heavy hatches with a large opening angle HAHN Gasfedern have developed a special double-stroke gas spring which is characterised by a low start and end force. These gas springs have 2 differently filled pressure tubes and can therefore cover 2 different force ranges.

HAHN GASFEDERN THE RIGHT PRODUCT FOR EVERY APPLICATION

Gas Springs..... 5–10.000 N
Tension springs 30–5.000 N
Locking Gas Springs..... 0–2.500 N
Dampers..... 5–2.500 N

Double-stroke Gas Springs..... 150–5.000 N
Telescopic gas springs..... 100–1.000 N
Customized solutions according to customers' requirements

EXTREMELY TOUGH THE PERFECT SOLUTION TO ANY ENVIRONMENT

Stainless steel: protects against corrosion, chemicals and other influences from the environment
